

RADIANT HEAT TECHNOLOGY

PREFABRICATED BOILER PUMP PANEL COMPATIBILITY CHART

For modulating condensing boilers and other primary/secondary loop systems

Best in class of prefabricated boiler systems. Clean, efficient, fast.

Professionally manufactured, pre-assembled, hydronic heating systems. RHT Boiler Panels are an excellent value & time-saver, simplifying your radiant heat installation with a clean custom solution. On-site work will be minimized to connecting supply/return lines to boiler & supply/return lines to manifolds, electrical wiring, connecting to make-up water supply.
